

SYBIL'S JOURNEY HOME

Will you choose the right path and guide Sybil the

Bream back to his family?

Avoid the Atlantic Grey Seal and the sea pollution!

DID YOU KNOW?

These seals love to hang around the Milford Haven Waterway including the beautiful Skomer and Skokholm islands. Pupping season for them is between September and October.

DID YOU KNOW?

- Approximately 8 MILLION tonnes of plastic waste ends up in the ocean
- Over 90% of seabirds have plastic in their stomachs
- By 2050, it's predicted that by weight, they'll be more plastic in the ocean than fish

YOU CAN HELP BY..

- Don't litter! Always put rubbish in bins and try to recycle
- Say **NO** to single-use plastic
- Don't flush anything you're not meant to down the toilet
- Take part in a beach clean, visit Keep Wales Tidy and Surfers Against Sewage for upcoming beach cleans and for more information

GUESS WHO?

Some of our friends are little bit shy and are hiding behind the seagrass, are you able to identify them

This fish shares the same name as a musical instrument.

Pembrokeshire have many species of this, a common type is the "Barrel" that can grow up to 1 metre wide!

In Pembrokeshire, some of the species you may come across may be "Basking", "Blue", "Mud" and "Porbeagle".

Not just in tropical countries, one of the most common to find in Pembrokeshire is the "Leatherback" and can grow up to 2.5m long!

This fish shares the name with an unfortunate haircut.

You'll find plenty of these tasty crustaceans around

Pembrokeshire, REMEMBER eating locally sourced seafood is always best! One species is even named after an 8-legged creepy crawly.

GO FISH!

7 male Cuckoo Wrasse visited the Fish Festival at Milford Waterfront last year. Can you find them all?

Male Cuckoo Wrasse

Pembrokeshire can have tropical looking fish too! These colourful fish can be found all over the UK coasts.

COOL FACT!

All Cuckoo Wrasse are born female and they can change into a male when they need to. For example, if the alpha male dies, the largest female will turn itself into a male and take its place.

DID YOU KNOW? Another cool looking fish you can find in Pembrokeshire is the sunfish, it's the world's largest bony fish! A summer visitor, the average sunfish weighs around 1000kg and they like to eat jellyfish.

Milford Waterfront MAKE YOUR OWN MINI AQUARIUM

WHAT YOU'LL NEED:

- 1/2 pint of flavoured water
- Gelatine (we used Dr. Oetker Gelatine Leaves)
- Blue food colouring
- Glass/Jar to put your jelly in
- Ocean-themed jelly sweets
- Knife

Please ask an adult for help!

STEP 1

Put a few drops of blue food colouring into your choice of flavoured water. Make sure not (push it as far as you want your jelly sweet to to use too much as you need to see the jelly

sweets.

STEP 3

Once combined pour the liquid into a glass or jar and pop it in the fridge so it can set

overnight.

STEP 4

Once the jelly is set, insert a knife into the jelly go) and then push your jelly sweet in, we got ours from Scott's Sweet Shop at Milford

Waterfront. Repeat until your mini aquarium

is complete.

STEP 2

Prepare your gelatine as per pack instructions, once ready combine the gelatine with the blue liquid.

STEP 5

Enjoy your yummy treat!

Q. What did the fisherman say to the magician? A. Pick a cod, any cod!

JOIN IN ON THE MERMAID PURSE HUNT!

No no, we're not talking about a Mermaid's fashion accessory...

If you've been beach-combing before you most likely come across these cool things!

These leathery pouches are designed to look after shark and ray eggs, once the pouches are empty you'll find them washed ashore.

Mermaids' purses that you find beaches can help marine biologists to map nursery areas for shark and ray species, some of those species may even be endangered or rare!

If you come across one why not record your findings on the database? Head to www.sharktrust.org/great-eggcase-hunt for more information and to become a citizen scientist.

Q. Where can you weigh whales?

A. At the whale-weigh station!

COLOUR IN YOUR RAINBOW FISH!
